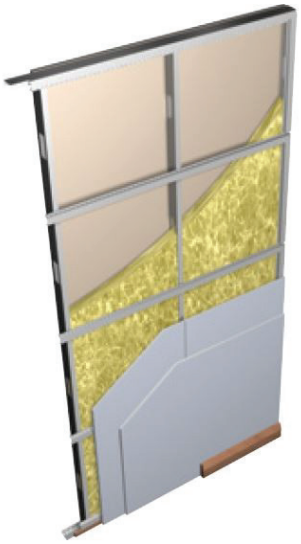
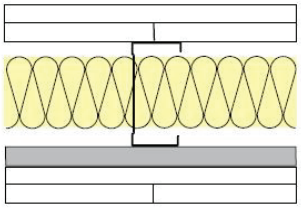
GypWall QUIET SF (RB1 one side) - Double Boarded System @ 600mm centres





Consumption Rate Criteria

Stud Type	Gypframe 'C' Stud or 'I' Stud
Stud Spacing	600mm centres
Partition Height	3000mm
Partition Area	100m²
RB1 Centers	600mm vertical centers

Component	Total Quantity per 100m²
Gyproc Plasterboard	**400** m²
Gypframe 'C' Stud or 'I' Stud	**167** m
Gypframe Standard / Deep / Extra Deep Channel	**67** m
Gypframe RB1 Resilient Bar	**200** m
Gypframe GFS1 Fixing Strap	**34** m
Gyproc Drywall Screws (Inner Layer)	**1800** pieces
Gyproc Drywall Screws (Outer Layer)	**2480** pieces
Gyproc Wafer Head Screws	**305** pieces
Gyproc Sealant	**8** tubes
Isover Eco APR Glass Wool insulation (If required)	**100** m²
Gyproc Joint Tape	**245** m
Gyproc Jointing Compound	**56** kg
Deflection head (plasterboard strips, Gyproc FireStrip and mineral wool insulation)	**Refer deflection head guidance**

For General Consideration

- The above quantity take-off to be read in conjunction with the Gyproc proposal for the project and the Gyproc White Book available at www.gyproc.ae
- Where partition heights extend beyond the stud length, an additional 600mm will need to be added for the stud splice for 'C' studs and an additional 600mm length of channel for 'I' studs.
- Gypframe Channel requirements may differ depending on partition length and height combinations within 100m² area. Refer to the Gyproc White Book for details regarding the appropriate use of Gypframe Channel based on the actual partition height
- Consumption rates estimated from typical partition dimensions of 3000mm high and 100m² total area (straight partition without any corners). The material requirement have been based on the standard Gyproc System proposed and does not include wastage, additional studs where T-junctions, abutments and splayed angles, bulk filling to the base where boards have been lifted or raised slightly off the floor.
- It is the responsibility of the ordering authority to check the above quantities against final drawings, BOQ and site conditions before placing material orders. Gyproc cannot be held liable for actual quantities required for the project.
